

### **MESSAGE FOR EASTER 2017**

The Celebration of Easter is an invitation for all human beings to arise to the higher life of the spirit. In today's era, humanity lives a semiconscious existence, which takes place only on an exterior material level, while the immense wealth of the spirit which is within remains ignored. The Masters of the Highest Order are sent periodically to our Planet to awaken humanity to this authentic Reality and set it on the eternal Path of Knowledge and Bliss.

Those who follow the Main Way set out by Them are truly fortunate because they put an end to the uncountable hardships that inevitably accompany the life of man. For them even death resolves into Resurrection in the Divine Light and Harmony, since while they still tread the sand of time they are given to enter into the mysteries of the spirit and to immerse in the Infinity and Eternity.

I wish all of you to be able to arise every day in the Vibrant Splendor of the Divine Word, which is the authentic way to celebrate the coming Easter in Christ Power or Master Power.

With all love, yours affectionately,

Pier Franco Marcenaro
