

## MESSAGE FOR EASTER 2020

Dear Beloved Ones,  
This is a period of trial for the entire Planet, in which an invisible virus seems to have momentarily defeated the powerful ones of the world, obligating many populations to stay closed up in their own homes.

This can offer to you, Disciples of the living Master, more time to dedicate to meditation and to the authentic Goal of existence, which consists of reawakening more and more God consciousness in us. To those of you who carry out

an indispensable activity, both to help those who are suffering, or for the survival of the population itself, goes a particular thank.

In any case, you may all rest assured that you enjoy the protection and the grace of Master Power, Christ Power or God Power, extending over you all feasible help.

In Italy and in the whole world you can continue to practice meditation also on the day and time at which you practiced together in your periodical Meetings, while hoping to resume soon our Meetings at the Monastery of Sargiano.

I send you for the coming Easter, which will see us physically far but spiritually always together, my most loving greetings and best wishes.

Yours affectionally,

Pier Franco Marcenaro

*Pierfranco*
