

A LOOK TO THE UNCERTAIN FUTURE

Monastery of Sargiano, July 22, 2025

People were hoping that the beginning of the New Century and the New Millennium would finally bring a period of prosperity and peace to the Planet Earth. Instead, it was the prelude to a moral and social decline never seen before. The Divine Call toward a more spiritual and less dissolute life, through a pandemic that claimed millions of lives in all the world, went completely unheard.

On the contrary, it was followed by two wars involving the major countries of the Globe, spreading hatred and reawakening ancient religious and political conflicts. All of this, even going so far as to threaten the use of nuclear weapons, capable of cancelling life on the entire Planet.

In the face of this disquieting scenario, Man Center has strengthened its purpose to continue along the Path of Knowledge, Service, and Love, the only Way capable of bringing true Happiness and Brotherhood to humanity.

And it has continued its efforts to create self-sufficient Centers, safe from the instability of the declining society that surrounds us. In these Centers, Spirituality will be the Divine Science that will inspire every activity of its fortunate inhabitants, to achieve the complete and lasting Happiness that humankind has been seeking for millennia.

With love, your affectionately

Pier Franco Marcenaro
