

CENTRO DELL'UOMO

MESSAGE FOR CHRISTMAS 2025 AND THE NEW YEAR 2026

Dearest Ones,

one year ago, at Christmastime, far-off echoes of war were coming from the places where Christ was born and preached Justice, Love and Peace, opening the Way towards a New Era of Knowledge, Spirituality and Bliss. Today, those echoes have unfortunately turned into a conflict that has brought suffering and destruction to those places that were previously blessed by Master's presence.

The most powerful nations in the world, with their intervention in that conflict, have then threateningly displayed their nuclear weapons, the use of which would have unimaginable destructive effects on the Planet.

Numerous other wars are going on in many parts of the world, even at this Christmastime, making our Planet a place far from being stable and safe.

But this condition of perennial conflicts in which the Earth finds itself is only the consequence of the abyssal drop in the moral and spiritual values in which the humankind has fallen down, in this final period of the Iron Age or *Kali Yuga*.

For these reasons, in the New Year *Man Center* is going to continue its untiring work of educating human beings to their most elevated moral and spiritual values, for the coming of a New Era of Truth, Love and Bliss.

The renovation and the construction works of its two new Centres will actively continue in the area of Amiata, conceived so that their guests would be safe from the unpredictable events of the present-day world. The first one could already be completed in the course of the New Year, so that the Souls thirsty for authentic happiness could find there an Oasis of peace.

This may be a first step towards the fulfilment of Christ's prayer when he stated that the Kingdom of God, already established in Heaven under the Divine Will, would in the future become a Reality on the Planet Earth too: "*May Your Kingdom come; may Your Will be done, on Earth as in Heaven.*" (Gospel of Matthew 6:10)

I send all of you my most loving wishes for a Bright Christmas and a New Year that sees us progress along the Radiant Way leading to the Goal.

Yours affectionately

Pier Franco Marcenaro
